**Intelligent Pole Base  
Autel: EV Chargers**

*Smart solutions to typical parking lot  
lighting and charging stations*

## Intelligent Pole Base

The **Intelligent Pole Base (IPB)** creates a weatherproof housing that offers flexibility, power, and add-on options, while maintaining structural strength and integrity.

Single or multiple EV Chargers can be installed at each IPB, making parking lots destination areas for Electric Vehicles. Integrating digital displays are perfect for retail advertising, special events and more.

IPB also allows for electrical outlets, battery storage, and security features.

**IPB**  
INTELLIGENT  
POLE BASE

**AUTEL**

## Applications

EV charging stations

Digital advertising

Safety displays

Electrical outlets

Network switches & routers

Storage for PA systems

Full-size Schlage keyway

**With competitive lead times and superior performance, IPB and Autel offer the right solutions for your commercial projects**

## Autel

Ranked number one internationally for battery analysis systems, digital repair solutions, and automotive diagnostics, **Autel** is your one-stop EV charging solution provider.

Autel optimized the usability of their products through easy-to-use APP's and cloud-based backends, that allow you to seamlessly navigate, control and manage your assets.

## Incentives

Rebates, grants, and incentives have sprouted up across the country to help reduce the cost of installing an EV charger. In fact, a rebate or incentive is currently available in two-thirds of the US. Scan the QR code to learn more about this opportunity.
